Others with access to data: _____

Institution: _____

Address: _____

Email: _____

Subject: Data confidentiality agreement for the participation **in the CETUS Challenge**

We, the undersigned, agree to contribute to the challenge on Endocardial Three-dimensional Ultrasound Segmentation by performing (semi-)automatic segmentation of the endocardial surface from the 45 ultrasound datasets provided through the CETUS website.

The undersigned:

- pledge that none of the ultrasound and the reference standard datasets provided by the organizers will be given away or distributed under any circumstances to persons other than the people mentioned above.
- pledge that the ultrasound data will be used exclusively for the evaluation of endocardial segmentation methods.
- pledge that they will cite the paper(s) related to the CETUS challenge when publishing results obtained with this data. Citation details can be found on the website.
